## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Richard V. Burgujian on September 3, 2004.

The application has been amended as follows:

In claim 1, line 7, following the word "removing", insert - - the oxide film from - - .

#### ***Allowable Subject Matter***

2. Claims 1 – 4 are allowed.

3. The following is an examiner's statement of reasons for allowance:

Claims 1 – 4 recite, inter alia, a method of forming a non-volatile memory device in which the gates, LDD, source and drain areas are simultaneously formed on the flash device and the logic gate areas of the substrate and then the ONO layer is formed over the gate in the flash device gate area covering the other area with TEOS and then removing the TEOS from over the substrate. Although, Pham, US 6,605,511 and Nitta, US 2003/0049905 teach a method of forming a non-volatile memory device by forming the gates and the ONO layers they fail to disclose or anticipate the above limitation in combination with other claim elements. Additionally, the art of record does not disclose or anticipate the above limitation in combination with other claim elements nor would it

be obvious to modify the art of record so as to form a device including the above limitation.

***Conclusion***

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
